Winter PWH-6810

Description

The Proway PWH-6810 is a work glove from the Winter Series. The Winter Series combines protection in cold environments with wearing comfort. The PWH-6810 has a 13G seamless knitted polyester liner with a 10G terry lining. A polyester liner is elastic yet strong. This liner is resistant to wear and tear. An acrylic terry lining insulates well against the cold, has high abrasion resistance and can withstand high tensile forces. The PWH-6810 has a double latex coating. The first layer is a full coating and the second layer is a palm coating. A latex coating is flexible, tear-resistant and offers optimal grip. This full coating is waterproof and provides a certain degree of protection against acids and cleaning agents. The double coating on the palm provides grip and mechanical protection. Choose the Proway PWH-6810 and experience its insulating properties combined with comfort.

Applications

- Building and construction
- Civil engineering
- Cold environments
- Cold stores
- Damp environments
- General activities
- Landscaping and forestry
- Offshore
- Shipping
- Transport and logistics

Features

Liner:	Polyester and terry acrylic lining
Liner colour:	Blue
Gauge:	13G liner, 10G lining
Coating:	Latex full coating with sandy finish palm coating
Coating colour:	Blue/navy blue
Cuff:	Elastic

Productinformation

Article name	Size	Overlock colour	Packing	Retailbag
Winter PWH-6810-07	7/S	Red	6 x 12 x 1 (72 pair)	1 pair
Winter PWH-6810-08	8/M	Yellow	6 x 12 x 1 (72 pair)	1 pair
Winter PWH-6810-09	9/L	Brown	6 x 12 x 1 (72 pair)	1 pair
Winter PWH-6810-10	10/XL	Black	6 x 12 x 1 (72 pair)	1 pair
Winter PWH-6810-11	11/XXL	Lightblue	6 x 12 x 1 (72 pair)	1 pair

Certification

Abrasion resistance: 2	EN 388:2016+A1:2018	EN511:2006	2016/425	EN ISO 21420:2020
Blade cut resistance: 2				
Tear resistance: 4				
Puncture resistance: 2				
Cut resistance (ISO 13997): B	2242B	X2X	CAT II	

Performance is measured on the palm of the glove. 'X' indicates that the glove has not been submitted to the test or the test method does not appear to be suitable for the glove design or material.
