

Winter PWH-6805

Description

The Proway PWH-6805 is a work glove from the Winter Series. The Winter Series combines protection in cold environments with wearing comfort. The PWH-6805 has a 10G seamless knitted acrylic terry liner. An acrylic liner insulates well against the cold. Acrylic has high abrasion resistance and can withstand high tensile forces. The PWH-6805 has a latex palm coating. A latex coating is flexible, tear-resistant and offers optimal grip. This coating is waterproof and provides a certain degree of protection against acids and cleaning agents.

Choose the Proway PWH-6805 and experience its insulating properties combined with comfort.
