

Description

The Proway PWH-80750 is a work glove from the Touch Series. Gloves in the Touch Series meet the highest quality standards. The PWH-80750 has a 15G seamless knitted liner made of recycled polyester/spandex. Polyester is elastic, strong and resistant to abrasion. Spandex has high breathability and has high abrasion resistance. The PWH-80750 features a nitrile palm coating with touchscreen. A nitrile coating is flexible, offers good protection against abrasion and protects to some extent against acids and oil. A nitrile coating contains no latex which reduces the risk of allergic reactions.
